

IN THIS DOCUMENT

- 1.1 GENERAL
- 1.2 USAGE
- 1.3 PREREQUISITES
- 1.4 STEPS
- 1.5 FOLLOW-UP ACTIONS

1.1 GENERAL

This document runs through the procedure for configuring Italax.NET Client on a client PC for a multi user server installation of Italax.NET

1.2 USAGE

This document applies only when configuring Italax.NET Client on a client PC for a multi user server installation of Italax.NET. It should only be used where there is a server installation of Italax.NET to hold the data.

For information on installing Italax.NET in a single user situation, please refer to: *"Install Italax.NET (Single user installation)"*

For information on installing Italax.NET on a server, please refer to:

"Install Italax.NET (Server installation)"

1.3 PREREQUISITES

- The name of the server hosting Italax.NET must be known.
- The client PC must be able to see the server hosting Italax.NET and have read and browse permissions to the Server folder where Italax.NET is installed (Default install location is: c:\Program Files\Italax.Software\Italax.NET)

1.4 STEPS

1) Open the Italax.NET Configuration utility in the Italax Software program group

Italax.NET	Configuration Utility		
Database c Server	NSQLEXPRESS		
Database	Italax	Use Integrated Security	
Test C	Connection		
Master Itala	ax.NET		
Master	<u> </u>		
			Save Cancel

- Change the Server field to <ServerName>\SQLEXPRESS where <ServerName> is the name of the server hosting Italax.NET, Untick "Use Integrated Security", and click to test the database connection.
- 3) Click the browse button on the Master field, and point to the Italax.NET executable (ItalaxNET.exe) on the server installation of Italax.NET.

😸 Italax.NET	Configuration Utility		
Database c	onnection settings		
Server	WIN2K3\SQLEXPRESS		
Database	Italax	Use Integrated Security	
Test C	onnection		
Maratan Ibala	NET		
Master Itala	IX.NET		
Master	\\Win2k3\CDrive\Program File	es\Italax Software\Italax.NET\ItalaxNet.exe	
			Cancel

After configuration, the screen should look like this example:

4) Save the configuration and exit.

1.5 FOLLOW-UP ACTIONS

Italax.NET installs with a temporary 30 day licence. After this period you will need to install a licence from Italax.com to continue using Italax.NET

For information on how to register and receive an Italax.NET licence, please refer to: *"Register Italax.NET"*
